

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times. "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe it. Physicians recognize it as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are no preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS, no perfectly satisfactory iron combination had ever been found.

BROWN'S IRON BITTERS does not injure the teeth, cause headache, or produce constipation—all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments iron is prescribed daily. **BROWN'S IRON BITTERS** does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by the first symptoms of benefit is removed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant sustenance is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. Physicians and Druggists recommend it. The Genuine has Trade Mark and crossed red lines on wrapper. **TAKE NO OTHER.**

T. H. N. SMITH,

DENTIST.

Nitrous oxide, or laughing gas used for the painless extraction of teeth. Office on Court Street.

C. W. WARDLE,

Dentist.

Nitrous-Oxide Gas administered. Office Corner Second and Sutton streets, Zweigart's Block.

L. A. WORKMAN,

Contractors.

ARCHITECTS and BUILDERS.

Plans and specifications furnished on reasonable terms. All work reliably and promptly done. Office on Third street, between Wall and Sutton.

JOHN CRANE,

House, Sign and—

Ornamental Painter.

Graining, Glazing and Paper-hanging. All work neatly and promptly executed. Office and shop, south side of Third street, west of new jail.

A. L. L. COLE,

LAWYER,

will practice in the courts of Mason and adjoining counties, the Superior Court and Court of Appeals. Special attention given to Collections and to Real Estate. Court street, Maysville, Ky.

G. W. SULLER,

(Court Street, Maysville, Ky.)

ATTORNEY AT LAW.

Will practice in the courts of Mason and adjoining counties. Prompt attention given to collection of claims and accounts. Also to Fire Insurance, and the buying, selling and renting of houses, lots and lands, and the writing of deeds, mortgages, contracts, etc. noid

WALL & WORTHINGTON,

GARRETT S. WALL,
E. L. WORTHINGTON

Attorneys and Counselors at Law.

Will practice in all courts in Mason and adjoining counties and in the Superior Court and Court of Appeals. All collections given prompt attention. nov14d

C. L. SALLER, Notary Public.

SALLER & SALLER,

Attorneys and Counselors at Law, will attend to collections and a general law practice in civil cases in Mason and adjoining counties. Fire Insurance and Real Estate Agents. All letters answered promptly. Office: No. 12 Court street, Maysville, Ky.

S. J. DAUGHERTY,

Designer and dealer in—

MONUMENTS, TABLETS.

Headstones, etc. The largest stock of the latest designs. The best material and work ever offered in this section of the state, at reduced prices. Those wanting work in Granite or Marble are invited to call and see for themselves. Second street, Maysville.

JACOB LINN,

BAKER AND CONFECTIONER.

Ice Cream and Soda Water a specialty. Fresh Bread and Cakes made daily and delivered to any part of the city. Parties and weddings furnished on short notice. No. 2 Second street.

JOHN WHEELER,

Dealer in—

FISH, GAME

Foreign and Domestic Fruits, Celery, Canned Goods, etc. Norfolk Oysters received every twenty-four hours.

REMOVAL.

Henry Mergard has removed his Merchant Tailoring establishment to Second street, next door to G. W. Saller's grocery store. Call and examine my samples of Foreign and Domestic Goods from the large wholesale houses of New York. Suits made to order on more reasonable terms than any other house in the city, and fit guaranteed.

WEAK, UNDEVELOPED PARTS Of the body enlarged and strengthened. Full particulars sent sealed free. MED. CO., BUFFALO, N.Y.

SOCIETY AT THE CAPITAL.

WHAT THE PEOPLE ARE DOING WHO HAVE NOT GONE AWAY.

A Week of Weddings and Charities—Colonel Richard Wintersmith Declines an Office and His Reasons Therefor—Convicts Coming to San Francisco—Notes.

WASHINGTON, June 6.—The society people who are left here are amusing themselves with weddings and charities. On Friday occurred the wedding of Miss Minnie C. Crowell, of this city, to Mr. T. C. McCague, a young banker of Omaha. On Wednesday occurred the marriage of Miss Agnes Stockton Royall to Mr. Arthur Jeffrey Parsons, at St. John's church, followed by a wedding dinner at the residence of Admiral Howell, the uncle of the bride.

On the same day occurred the marriage of Mrs. Mary H. Phillips to Mr. B. H. Walker at Fredericksburg, Va., to which many invitations were received here. The same evening Miss Rosalie Cunningham, of New York, and Mr. J. Henning Nelius were married at Epiphany church, in this city. On Thursday occurred the marriage of Paymaster Henry D. Wright, of the navy, to Miss Julia Spier, in New York City, and also the wedding of Miss Annie Henderson, daughter of Chief Engineer Henderson, of the navy and Lieut. W. S. Statton, of the marine corps, in St. Albans church, near Tennesseetown, at half past 12 p.m.

Aside from the weddings such charities as a Children's Summer home and a homeopathic hospital have been the objects of the tender attentions of the fragments of society people left here.

Convicts Coming to America.

NEW YORK, June 6.—A Washington dispatch yesterday stated that the commercial agent at New Caledonia, South Pacific ocean, had reported to the department of state that convicts in that colony are being liberated with the understanding that they must not settle in any English or French colony, and as a consequence the majority of them are going to San Francisco. He says a proposition is now before the local parliament to vote 1,000 pounds for landing in San Francisco all the worst of these men. The French government, he also says, are offering a subsidy of 150 pounds per month for a steamer to run between Neouma and Tahiti and thence to San Francisco for the purpose of assisting these immigrants to America.

The Courier Des Etats Unis has the following comments on the report: "The information given by this dispatch is absolutely false, and the American agent at Caledonia is in most complete error. By the terms of the law of 1855 convicts who are released cannot leave New Caledonia; their term having expired, they establish themselves in the colony, but are forbidden to go outside of it. They cannot, therefore, go to San Francisco, and it is still less exact to say that the French government seeks to encourage their emigration to America."

A Kentuckian Declines an Office.

WASHINGTON, June 6.—Col. Richard Wintersmith, of Kentucky, who was recently appointed special timber agent by Secretary Lamar, has surprised his friends by declining the position. The place doesn't pay over \$1,500 a year, but in the eyes of many applicants for office that's better than nothing. The appointment was agreeable to Col. Wintersmith at first. Mr. Lamar assured him, he says, that he should be detailed to inspect timber frauds in California.

The prospect of a free excursion to the Pacific coast just suited the colonel's fancy. When he reported for duty a few days ago however, he met with disappointment. Mr. Lamar was absent, and Land Commissioner Sparks assigned Wintersmith to go to Nebraska. The colonel refused to go, and expressed his opinion of Mr. Sparks in rather forcible language. "There is not a stick of timber to inspect in Nebraska," he said. "The country is full of rattlesnakes and it would be as much as my life is worth to go out there." Col. Wintersmith then tendered his resignation, but it will not be acted upon until Secretary Lamar returns.

Congressman Stahlnecker Talks.

WASHINGTON, June 6.—Congressman Stahlnecker, who is here looking after some matters, said he could see no good reason for an extra session. "It's true," he added, "that something must be done to reduce the surplus, but I think we can handle the subject in the time of the regular session. There is a general sentiment among Democrats in favor of a reduction of the tariff and I believe some kind of tariff bill will be made next winter. It is too early to make any prediction regarding Mr. Cleveland's renomination. One doesn't go hunting for blackbirds before the corn is up. A good man for the vice presidency is A. E. Stevenson, of Illinois, first assistant postmaster general. He has made a good many friends since he took charge of his office and is popular throughout the west."

The Exodus Stopped.

WASHINGTON, June 6.—The cool weather of the past few days has put something of a check upon the exodus of society people to the mountains and seaside. They found Washington extremely comfortable, more so than the seaside could possibly be, with its drawbacks of unsatisfactory hotel accommodations, for everybody admits that no matter what they pay or what the hotels promise, they don't get such accommodations from them as they get at home. So the change of weather checks up the departures, even though the president and half the cabinet have gone.

The oldest specimen of Christian architecture in the world is the Church of the Nativity at Bethlehem, which was built A. D. 327 by the Empress Helena, mother of Constantine the Great. An altar in this splendid basilica is said to mark the spot where were buried the 20,000 children massacred by order of Herod. Here also is a low vault, called the Chapel of the Nativity, with an inscription which says: "Here Jesus Christ was born of the Virgin Mary." The ancient church is now used by all sects alike, and it is in a state of great neglect. Adjoining it are Roman Catholic, Greek and Armenian convents, and connected with it is a chamber which was formerly the study of St. Jerome.

EX-VICE PRESIDENT WHEELER DEAD.

The Only Living Vice President Passes Peacefully Away.

MALONE, N. Y., June 6.—Ex-Vice President Wheeler died this morning at 10 o'clock. For ten days he had been conscious and rational only at intervals, and for the past two or three days in a stupor the greater part of the time. He suffered from softening of the brain, and there were indications of approaching paralysis. A carbuncle had appeared just above the hip on one side, and had become an element of further weakness. Mr. Wheeler had been slowly falling through the past five or six years, until last winter, when the progress of the disease became more rapid, and his physicians and friends began to fear the approach of the end. On the night of March 3 he was seized with chills, followed by a sinking spell, and Dr. Gay thought for hours that he would die. He afterward rallied, however, but never regained his former vigor and strength. Mental weakness gradually became apparent and increased until, first, there were indications of insanity, and later of helplessness and unconsciousness.

William A. Wheeler was born in Malone, Franklin county, New York, June 30, 1819. He entered the University of Vermont, but the sudden death of his father compelled him to leave the college course uncompleted. He returned to his native place and began teaching school, employing his spare hours in studying law. The people of Franklin county have been proud of their representative, and displayed their confidence by making him their district attorney shortly after he attained his majority; by sending him to both branches of the legislature; to congress for ten years, and to the constitutional convention of 1867.

He was president pro tem. of the state senate, and his abilities as a presiding officer were so generally recognized that he was chosen president of the last state constitutional convention by 100 votes out of the 160 on the first ballot. Mr. Wheeler was recognized in all deliberative bodies as a master spirit. His abilities were of a pronounced order, his mind was analytical. In the political complication which arose in Louisiana during the Forty-third congress, Mr. Wheeler was conspicuous and was chairman of the committee that visited Louisiana and finally adjusted the difficulty on the basis of what is known as the "Wheeler compromise."

Mr. Wheeler was in Cincinnati in June, 1867, and was nominated for the vice presidency by the National Republican convention, on the ticket with Rutherford B. Hayes. He was elected March 2, 1877.

ESCAPED THE GALLOWS.

One of New York's Husband Slayers Acquitted on the Second Trial.

LITTLE VALLEY, N. Y., June 6.—Mrs. Mary Wileman, the murderer of her husband, whose second trial has just been finished after three days, was today acquitted. On the former trial Mrs. Wileman was found guilty. The verdict was a surprise to the vicinity, as there has never been a doubt expressed of the woman's guilt. She was arrested October 28th, 1885, on complaint of the insurance company, who had a \$1,600 policy on deceased.

Mr. Wileman was a farmer who died September 17th. Before death and in the presence of neighbors he charged his wife with having given him arsenic in a pumpkin pie. The doctor, in his ignorance, however, pronounced the cause of death cholera morbus. Mr. Wileman's remains were exhumed and a quantity of arsenic was found in his stomach. Long before the death of Farmer Wileman, Mrs. Wileman was suspected of an intrigue with Wellington Staples, the hired man. After Mr. Wileman's death, Staples lived at the Wileman house with Mrs. Wileman until the latter's arrest. It was supposed that Mrs. Wileman was instigated to the murder of her husband by Staples. During the past year and a half which Mrs. Wileman has spent in jail she was daily supplied with delicacies from the farm, which Staples still cultivated.

MEXICAN BATTLE.

An Account of Late Action Between Mexican Cavalry and Bandits.

MATAMORAS, Mex., June 6.—Particulars of the late action between the Mexican cavalry under Col. Hernandez and the Mexican bandits, in the Bolso, has been received. The bandits, twenty-eight in number, were under the command of Lazaro Ayala, a well known bandit from the state of Nuevo Leon. Col. Hernandez divided up his men to pursue them, and as his men had unsaddled to take supper at a rancho they were attacked and fired on from the woods by the bandits, and one man killed.

Hernandez at once mounted his force and started after them. At the Conejeras rancho they were overtaken and another battle occurred, the bandits beating off Hernandez with the loss of three men wounded, the colonel himself being wounded. The plucky colonel, with but eight effective men still hung on the trail of his foes and reinforced, he again struck and surrounded them, capturing fourteen of them who were immediately executed. The balance are being hotly pursued and will probably all be captured and shot.

HARTFORD, Conn., June 6.—Two carloads of Texas ponies that had been shipped from Texas to Eastern Pennsylvania, and which had been wrongly transhipped to Bangor, Me., were unloaded here today. It is understood that they had been eighteen days on the cars without food. Several of the animals were dead when the cars were opened, and those that were alive were in a terribly emaciated condition. No driver was with them.

Serious Runaway Accident.

TIFFIN, O., June 7.—Robert Gray, a pioneer of Seneca county, aged seventy, was thrown from his wagon at Bloomville by a runaway horse. His collar bone and shoulder blade were broken, and he was perhaps fatally injured.

SITUATION AT CHICAGO.

WORKMEN DECLINE A COMPROMISE PROPOSITION.

They Decide Not to Go to Work Before all Their Demands are Granted—Opposition to Powderly Organizing—A Proposed Labor Demonstration in New York.

CHICAGO, June 6.—Four contracting masons and two manufacturers of building materials, among them George Lehman, John Dunphy and William Barton, representing a number of contractors and material men who got tired of the strike and wished to see the present complications settled, met with the executive committee of the bricklayers yesterday. The contractors made the following propositions:

"All bricklayers shall go to work under the old conditions, and the pay day question shall be subject to arbitration; or, in case this proposition does not suit the bricklayers, work shall be resumed under the old conditions that existed before the commencement of the strike, pay day on Saturday and the question of establishing a nine hour work day subject to arbitration."

The bricklayers were given to choose between both propositions, but at a meeting of the bricklayers last night both propositions were rejected, and it was decided not to go to work before all their demands were granted by the master masons.

The strike of the stove molders of Chicago has been declared off, and nearly five hundred men will resume work. Last night the stove molders met. After a thorough consideration of the situation it was decided to drop the demand for a 15 per cent. raise in wages and to return to work at once.

It is rumored that a secret meeting of officers of local assemblies of the Knights of Labor that are antagonistic to Master Workman Powderly is to be held in this city in the course of a few days, at which steps will be taken toward concentrating the opposition in different parts of the country, for the purpose of laying plans of operation at the annual convention at Minneapolis next fall.

The expulsion of District Assembly 124 known as the John Morrison Carpet Weavers' assembly, has given considerable joy to the anti-Powderlyites, who recognize in the taboed district a great accession of strength. Communication has been opened with the officers of this assembly, with the Denver and Pacific coast assemblies, which already have manifested open hostility to the present administration, and with numerous other assemblies, which, though they have not declared their position, are known to be willing to join hands with any well organized movement to "down" the present officers at Philadelphia.

It is hinted that this combination is likely to take formidable dimensions, and that Powderly and the Home club are likely to be confronted at Minneapolis with an opposition much better organized and more powerful than that with which they had to contend last year at Richmond.

Big Labor Demonstration.

NEW YORK, June 6.—The McGlynn demonstration committee composed of the delegation from many of the labor organizations of this city and prominent members of the United Labor party generally, were at Cooper Union to arrange for the proposed monster demonstration in favor of Dr. McGlynn which is to take place on the 18th of this month, the anniversary of the battle of Waterloo.

The meeting was a secret one, but at its conclusion the members of the committee talked freely of the prospects for the parade. It would be, they said, the biggest affair of the kind that New York had ever witnessed. The Knights of Labor and nearly all the trades unions of this city, Brooklyn, Hoboken, Jersey City, Long Island City, etc., had promised to furnish large contingents. Altogether, they declared, no less than one hundred thousand men would be in line. The anniversary of the battle of Waterloo had been purposely chosen.

Pardoned From the Pen.

BOSTON, Mass., June 6.—Franklin J. Moses, who, as governor of South Carolina, at one time occupied a large share of public attention, but who is now an occupant of the Massachusetts state prison, has been pardoned by Governor Ames, and will be released from confinement as soon as the customary formalities can be complied with. The strange career of Moses finally culminated in the forgery of the name of Thomas Wentworth Higginson, the author, early in the year 1885. In October of that year, he was sentenced to three years in state prison. It had been represented that Moses was in poor health.

Betrayed by a Diamond Pin.

LAFAYETTE, Ind., June 6.—Kate James, a young and rather prepossessing woman of twenty years, was arrested Friday for masquerading in male attire. The grand jury, now in session, took hold of the matter and indicted her for grand larceny. She is now in jail awaiting trial. She took a suit of clothes and a diamond pin belonging to Frank Moore and disguised herself as a man. She went in this guise for a week, visiting several cities. Her arrest was caused by her giving the diamond pin to an admirer. It was detected in his scarf by Moore, and he was arrested. He got out of the scrape by giving the James woman away. The matter is the talk of the town.

A Husband's Horrible Discovery.

BOSTON, June 6.—John Cunningham, of No. 1 Millville avenue, upon returning home from work found the door locked, and upon bursting it open discovered his wife lying upon the floor just alive, while in a back room her two weeks' old infant was found dead. By the woman's side lay another child sound asleep. The woman died shortly after her husband's arrival. Mrs. Cunningham had been drinking considerably during the past few days, and it is supposed that she smothered her child while in a state of intoxication, while her own death was probably due to the excessive use of liquor.

Three People Drowned.

SHAWNEETOWN, Ill., June 6.—Thursday afternoon the fish and store boat of Henry Muir, five miles above the mouth of the Wabash river, was caught in a whirlwind, torn loose from the shore, upset and wrecked in ten feet of water, drowning James Smith, aged six, and an infant of John Muir.

FINDLAY'S MURRAN.

Program for the Three Days' Celebration of Natural Gas Anniversary.

FINDLAY, O., June 6.—The natural gas celebration at Findlay on the 8th, 9th and 10th of June promises to be interesting. Wednesday morning the great gas wells will be visited, and a number of corner stones will be laid by the Patriarchs Militant, and in the afternoon the various companies of that order will compete in a drill for a purse of \$1,000. Wednesday evening the guests will be formally received. There will be an address of welcome by E. T. Dunn, and remarks by Governor Foraker. Each night during the celebration there will be a gas illumination, in which 30,000 gas burners will be used. All of the great gas wells will be turned on, the streets will be arched with semicircles of light, and great columns of flame will shoot from one hundred standpipes.

Thursday morning the day will be greeted with a hundred guns at sunrise. The corner-stones of several new factories will be laid by the Knights of Pythias, and in the afternoon the Knights of Pythias will have a prize drill for a purse of \$1,000.

Thursday evening there will be a banquet at which speeches will be made by Governor Hill, Senator Sherman, Senator Cullom, Edward Everett Hale and other important guests. Papers will be read by Professor Edward Orton, state geologist, and Professor I. N. Vail.

Friday will be the military day. There will be a salute at sunrise of two hundred guns. Later in the morning there will be a military parade, which will be followed by a prize drill for \$2,000, open to all military companies in the country. The military will be under the command of Adj. Gen. A. Line. Battery B, of Cincinnati, that won so much admiration at the recent National drill, will be present and add to the interest of the occasion.

Friday evening there will be a band contest. The first prize is \$1,000, the second \$500, the third \$250.

The people of Findlay and northwestern Ohio are sparing no pains and expense to make the celebration an interesting and memorable one.

A GANG OF THIEVES.

Important Arrests and Recovery of Stolen Goods in Fayette County.

WASHINGTON C. H., O., June 6.—For a year or more past a gang of thieves have been operating in this and adjoining counties, and a great many depredations have been committed. The officers failed to bring outlaws to justice, although at Mount Sterling, where a score or more of houses were burglarized last winter, one or two of the gang narrowly escaped being captured. The officers have recently made some important arrests of burglars who form a part of an organized gang of thieves, and it is supposed they are the fellows who have been living fat off the people of this section for a long time past. The parties are Walter Paul and Elmer Shingles, whose parents live some two miles from this city. They were arrested by Detective Linton, of Zanesville, who was sent here by Superintendent Darlington, of the Columbus & Muskingum Valley railroad, to work up a case of car breaking.

The detective, assisted by our local officers and detectives, soon got on to who committed the car robbery, and Shingles was first arrested. Shingles confessed, and turning state's evidence, implicated Walter Paul, who at the time was in jail at Wilmington for car breaking. Being pushed, Shingles acknowledged that they had also played a part in other robberies and thefts throughout this section, and told the officers where the plunder was hid away. Some of the stolen goods were dug up from the ground, some from hollow logs and trees and some found hid away between bed ticks. Paul and Shingles were arraigned before Mayor Milliken and both bound over to court, Shingles pleading guilty to burglary in two cases and Paul pleading not guilty.

Noted Case Postponed.

BOSTON, June 6.—The trial of O. W. H. Standley, of Salem, for shooting Benjamin Swett was again adjourned in the superior court today. When the case was called a dispatch was received from Marblehead stating that the defendant was unable to appear, as, at 3 o'clock this morning he had attempted suicide by drinking nitric acid, at the gas works in Marblehead, where he was employed. It was stated that there was slight hopes of his recovery. This is the somewhat noted case, where April 21, 1886, O. W. H. Standley, at Marblehead, was arrested for shooting Benjamin Swett, by firing a pistol over the head of his daughter, Mrs. Tut, in a quarrel about a division fence between the two estates. The case had been decided in favor of Swett, who was building a fence, when Standley tore off the slats, and after a quarrel, it is claimed that Standley's wife handed him a pistol with which to shoot Swett.

TROUBLE BREWING.

Settlers on the Maxwell Land Grant Liable to Get Out Their Winchesters.

DENVER, Col., June 6.—Trouble is brewing on the Maxwell grant. The settlers whose interests before the United States supreme court were represented by O. P. McMains are manifesting an ugly disposition since their defeat. Information has reached here that McMains is visiting those people and urging them "to get out their Winchesters and resist all attempts by the grant company to enforce its claims. McMains has many followers who are ready to do his bidding, and a strong resistance will be made to ejectments."

The company has proposed to sell or lease to the settlers, but the latter consider the terms unreasonable. The town of Raton, N. M., is on the grant, and those who have improved their holdings have been notified that they must move if they do not accept the offers made by the company. A war is certain to follow any attempt to dislodge these people.

Hope in Hoc at Last.

AUBURN, N. Y., June 6.—Jimmy Hope, the burglar just extradited from California, reached the prison at 8:30 o'clock this morning to serve out his unexpired sentence. He is under indictment here for jail breaking.

New Castle Expects It.

NEW CASTLE, Ind., June 6.—The gas well struck Niagara limestone at 243 feet, and is making good progress.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

RATES OF SUBSCRIPTION.

THE DAILY BULLETIN will be delivered to any part of the city at 6 cents a week, or one year for \$3.

THE DAILY BULLETIN to any postoffice in the United States, postage prepaid, at twenty-five cents per month or three dollars per year.

MONDAY EVENING, JUNE 6, 1887.

False Charges.

The Daily Republican made the charge a few days ago that "the common schools of Kentucky are kept up on smaller salaries to teachers than are paid in any other State."

This is simply an echo of what the Republicans of the State are charging against the Democrats. The Democrats have been in power and are, of course, responsible for the present condition of affairs.

The charge made by the Republicans as to the public schools is false. At least statistics published in 1880 would indicate as much. By these statistics the average monthly salary in this State was:

Males.....\$40 00
Females.....35 00

Let's compare these salaries with that paid by other States. Iowa is one of the strongest Republican States in the Union and has been such for years. The average monthly pay of her teachers was:

Males.....\$34 00
Females.....28 00

In other words, her male teachers got \$4.00 a month and her females \$7.00 a month less than the Kentucky teachers received.

And then there's Kansas, another Republican stronghold. The average monthly pay of her teachers was:

Males.....\$34 00
Females.....27 00

In Minnesota, another Republican State, the average monthly salary was:

Males.....\$38 00
Females.....28 00

While Illinois paid her male teachers \$14.00 a month more than Kentucky did, she paid her females \$4.00 a month less. Michigan is another Republican State, and the average monthly salary there was:

Males.....\$41 00
Females.....26 00

In Maine, the home of James G. Blaine, the pride of the Republicans of this country, the average monthly salary was:

Males.....\$33 00
Females.....16 00

And the great Republican State of Pennsylvania, always safe for that party by 40,000 majority, what was the average monthly salary of her teachers? It was:

Males.....\$36 00
Females.....31 00

The schools of Kentucky are on a much better footing to-day than they were in 1880, and, no doubt, Kentucky can now make a far better showing as to the average monthly salaries of her teachers. The above is enough to show how silly and how false are the charges of the Republicans as to the pay of our teachers, and their other charges are of a like nature.

The statistics referred to show that nineteen States paid their male teachers less money than Kentucky did hers, while three others paid the same.

The Cincinnati Telegram says the teachers of that city are fond of drawing—their salaries.

COLONEL W. O. BRADLEY should lessen his pace, and save his wind. He'll need it on the home stretch.

PERHAPS the Daily Republican will still insist that "the common schools of Kentucky are kept up on smaller salaries to teachers than are paid in any other State."

COAL and timber land in Harlan County, Kentucky, is selling as low as three dollars an acre. Investors in such land ought to realize a handsome profit in course of a few years.

THE Grand Lodge of the Knights of Pythias will hold their annual meeting in Lexington next September. Over two thousand members are expected to be present. One company from Indianapolis, two from Louisville, nine from the State and two from Cincinnati have already signified their intention of attending.

THE Democratic primary election in Brown County, Ohio, came off last Saturday. Louis F. Walther, of Higginsport, a brother of C. F. Walther, of this city, was one of the candidates for Probate Judge. He had three opponents. In Huntington Township his majority over all was forty. The result in the county not yet known.

THE Louisville Post says: "The colored men in Kentucky are tired of the treatment they have received at the hands of the Republican party of the State, and have about determined to organize a party of their own. This will be a good scheme. The more parties the merrier. The white Republicans are able to get along without the colored brother on their tickets, they certainly should be able to do as well without them at the polls."

Personal.

R. G. Lynn, of Washington City, is in town.

James H. Hall, Jr., returned Saturday from New Orleans.

Dr. Henry Marsh returned from Winchester this morning.

Mrs. Henry, of Ripley, is visiting her son, T. J. Henry, of the Fifth ward.

Miss Mary Slattery, of Chicago, is visiting her sister, Mrs. Dennis Fitzgerald.

Mrs. Thad. Adams and children, of Danville, Ind., are visiting her uncle, T. C. Campbell.

Michael Bowden and wife, of Paris, Ky., are spending a few days with their daughter, Mrs. Wm. O. Mara.

Miss Hattie McCracken returned Saturday to her home at Ripley, after a pleasant visit to Mrs. Jeff Henry.

Mrs. Elizabeth Jones returned Saturday to her home at Newport, after spending a couple of weeks with Mrs. Malissa Rosser.

Mrs. Mary Flanagan, formerly of this city, but now of St. Louis, after a short stay with friends in this city, leaves for her home to-day.

WHILE working on the railroad bridge at Limestone Creek this morning, Logan Cook fell, dislocating his collar bone, and sustaining other injuries.

THERE are 540 lodges of Knights of Pythias in this country, and of these only twenty-five gave more to the earthquake sufferers of Charleston, S. C., than Limestone Lodge of this city. The Knights of Maysville have cause to be proud of the showing they make.

THE Richmond, Ky., correspondent of the Courier-Journal says that, at the commencement exercises of Madison Female Institute the other evening, "Miss Anna Burgess appeared lovely in the stars and stripes, as the Goddess of Liberty." Miss Burgess is the daughter of "Squire Burgess, of Fern Leaf, and she and her sister are two of the pupils who graduated last week from the above college.

LYDIA BOWERS got into a quarrel with her husband, Henry Bowers, Saturday night, and slashed him across the face with a knife or razor, inflicting an ugly, but not dangerous cut. The parties are colored, and live on the Fleming pike. Troubles of a domestic nature are given as the cause. Deputy Marshal Dawson arrested the women, and she will be called to answer the charge to-day.

THE attention of pedestrians on Second and Third streets in the vicinity of Grave alley was attracted by a cry of "murder" and the screams of women yesterday about noon, and in a short time nearly two hundred people had gathered. A BULLETIN man was passing by, and, on inquiring the cause of the racket, was informed that "the Suns was having a friendly set-to." At that moment, John Suns stepped out of a house on the alley. A crowd of women were around him, and it was impossible to tell whether they were in the melee, or were trying to pacify him. Wm. Suns soon put in an appearance with hatchet in hand, and it looked for a while as though blood would be shed. Friends of the men succeeded in quieting them, however, before any harm was done.

City Items.

Try Langdon's City Butter Crackers.

All kinds of home and Southern vegetables, strawberries, etc., at G. H. Heiser's. The latest styles of wall paper and ceiling decorations, at J. C. Pecor & Co.'s drug and book store.

Our display of seasonable dry goods is very fine. Remember we are never undersold. PAUL HOEFELICH & BRO.

See our cheap counter. Our lot of fine and cheap cassimeres, for men and boys, at cost, to close out. W. W. HOLTON.

Carpets, carpets—The handsomest line ever seen in Maysville at positively the lowest price. PAUL HOEFELICH & BRO.

D. Hunt & Son have the handsomest display of carpets in the city. Their prices are the lowest. See them. m8tf

D. Hunt & Son's stock of dress goods, Scotch zephyrs and satteens are acknowledged to be the finest ever seen in this city. See them. m8tf

G. W. Blatterman & Co. carry a very large stock of mouldings, including all latest styles, and solicit orders for framing. A variety of pictures, all styles, including some fine oil paintings by distinguished foreign artists.

COOPER'S HALL.—Riffe & Henderson, the prescription druggists, are paying special attention to the prescription business, and have a stock of drugs, medicines and chemicals which they guarantee to be the best. Give them a call and be convinced that you can save money. Prescriptions filled day or night by competent men. RIFFE & HENDERSON.

OUR NEIGHBORS.

MAYSLEICK.

J. F. Wells is now travelling for a first class Ohio nursery. He is now calling on his friends and soliciting orders.

James Anderson and wife, of Dover, were visiting the family of Walter Small a few days last week.

Colonel John B. Herndon, of Desha Valley, made us a call last Wednesday.

Several days rain last week, and about all the tobacco is set out and doing well.

Squire McIlvaine, of Lewisburg, was here Friday, talking up his pumps.

J. A. Jackson has a supply of Simmon's Liver Regulator on hand, both in powder and liquid form.

Storm Signals.

As the coming of a great storm is heralded by the display of cautionary signals, so is the approach of that dread and fatal disease, consumption of the lungs, usually announced in advance by pimples, blotches, eruptions, ulcers, glandular swellings, and kindred outward manifestations of the internal blood poison, which, if not promptly expelled from the system, attacks the delicate tissues of the lungs, causing them to ulcerate and break down. Dr. Pierce's "Golden Medical Discovery" is the great remedy for all diseases having their origin in bad blood. It improves the appetite and digestion, increases nutrition and builds up the wasted system.

JUMPED TO DEATH.

A Delirious Man Throws Himself From a Third Story Window.

MINNEAPOLIS, Minn., June 6.—At 8:25 last evening, the body of a half-dressed man shot down from a third story window at No. 115 Washington avenue, south, and fell upon the sidewalk with terrible force. Bystanders rushed to the scene and found the body of Lennie McAfree, the well-known billiard expert, clad only in a shirt on the pavement. Blood gushed out from a cut over the left temple, and as soon as a telephone wire, which had become wound about his legs, could be untangled, the unconscious and apparently dying man was carried to his room.

An examination made by Dr. J. B. Freeman showed that the left frontal bone was fractured, there being a hole in the skull, into which a finger could be thrust. The left arm was broken at the elbow, and there were cuts upon the abdomen and legs, made by the wire. He was sick, and jumped from the window while delirious.

Another Death From An Orange Seed.

NORWICH, Conn., June 6.—Miss Marian Elsie Blackman, teacher in the Norwich free academy, died this week of the ailment that caused the death of Henry Chatfield, of Brooklyn. An orange seed that she swallowed lodged in the small intestines and inflammation resulted. She was taken ill last week Thursday. No attempt was made to save her life by a surgical operation. She was buried on the following Wednesday. There was a similar case in this city a year or two ago. Dr. Paddock was the patient and a council of physicians decided that his death was inevitable, but Dr. Carleton, now dead, undertook at the patients request the operation of cutting the seed out. He performed the operation in a few moments and Dr. Paddock recovered.

Died of Religious Excitement.

PARK RIDGE, N. J., June 6.—Mrs. John Storms died yesterday, the result of religious excitement. Switzer and Mason, the fanatical preachers, led her to believe her duty no longer obliged her to live with a husband who is not a Christian. Death has probably saved her family great disgrace, as Mason had recently declared his intention to have Mrs. Storms leave her home. Mason, who has been away, returned here to-day, and he will probably be clothed with a coat of tar and feathers.

Missouri Crop Report.

ST. LOUIS, Mo., June 6.—Mr. J. W. Sanderson, the secretary of the state board of agriculture, will state in his crop report for June, that wheat is 90, one point off from May. It is injured some in southwest Missouri, by drouth and chinch bug, but elsewhere it is very fine and forward. Corn has an excellent and good, even stand. The area compared with last year is 103.25, cotton area 107.26, meadows 91.23, pastures 94, peaches 84, apples 83 and oats 96.23. As a whole, the season gives an unusual good average of all crops, and farmers feel cheerful.

Murder and Probable Lynching.

ST. LOUIS, June 6.—While Henry Gaulut, the owner of a large farm about three miles below the southern limit of the city, was working in his field with a hired man, known by the name of John, a slight altercation occurred, and John struck Gaulut over the head with a heavy whip, inflicting a terrible wound, and it is thought, fractured the skull. John fled, and the whole neighborhood turned out en masse, and have been scouring the country for him. If he is captured he will be lynched, and the probabilities are he will be captured and killed.

Crushed Under a Derrick.

RIPLY, O., June 6.—This morning Paris Moore, while working on the Maysville & Big Sandy railroad bridge, over Beasley creek, just opposite this place, was struck down by a derrick falling on him and almost instantly killed. Moore was twenty-two years old and was the main dependence of a widowed mother and two sisters, who live at Manchester, O. He was a member of the I. O. O. F. His remains was taken in charge by the order at this place till his friends arrived.

Mansion Burned.

DAVENPORT, Iowa, June 6.—C. E. Putnam's well known mansion at Woodlawn, near this city, was destroyed by fire yesterday. Mr. Putnam's extensive library, together with much of the literature and works of art and science of the late J. Duncan Putnam, was consumed. The loss is \$30,000; insurance \$7,500.

The Verdict Unanimous.

W. D. Suit, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only half a dollar a bottle at J. C. Pecor & Co.'s and S. P. Campbell & Co.'s, Aberdeen, O.

Shackleford's Pharmacy.

Most attractive store in town—in "Cox Building." Fine old wines and liquors for medical purposes. Pure drugs, Toilet articles in great variety.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this great discovery for consumption free at J. C. Pecor & Co.'s and S. P. Campbell & Co.'s, Aberdeen, O.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. C. Pecor & Co.

THERE will be a lawn party given in the Fifth ward school yard next Friday evening, the proceeds to be used in purchasing an organ for Mitchell Chapel. It will be under the management of the ladies of this city. Music and refreshments.

THE Ripley Bee and Times says Anthony Beasley is one of the men whom John Bennett tried to swindle out of their wages at the stone quarry above the Ripley ferry-landing the other day. Beasley followed Bennett to Moscow, and got his money.

A TERRIBLE TRAGEDY.

John H. Fields Shoots His Aged Wife and Two Sons, and Then Cuts His Throat.

All Still Living at Last Accounts—The Particulars of the Awful Affair.

The home of John H. Fields, about two and one-half miles from Helena on the pike leading from Flemingsburg to Mt. Gilead, was the scene of a terrible domestic tragedy about two o'clock Sunday morning. Fields shot two of his sons, then his aged wife, and afterwards attempted to take his own life by cutting his throat. Numerous reports are current as to the particulars of the horrible affair, and among so many rumors it is difficult to get at a correct account. The troubles that led to the tragedy originated some ten years ago. Fields is an honest old German, aged sixty-five now, who had accumulated considerable property by hard work and economy. About ten years ago he became surety for a son-in-law, Farris Bright, who was financially embarrassed. Fields afterwards grew uneasy over the debts, and to save his farm and home deeded it to two of his sons, with the understanding that it was to be deeded back to him as soon as Bright's troubles were settled. This they refused to do, and a law suit followed, the wife taking sides with the sons. Fields left his home but went back some months ago. His life, however, has not been a happy one, by any means. Such is our information of the troubles that culminated Sunday morning in the terrible tragedy.

At the hour named Fields, armed with a 38-calibre pistol, entered the room where his two sons were asleep, and shot both of them, Ed, the elder, twice, and the other once. The parties were shot in the face and head, and their wounds are thought to be fatal. Mrs. Fields was awakened by the noise and rushed in to the room to see what was the matter. Then the deadly weapon was turned upon her, and she received a wound in the left side, which is also thought to be fatal. Although badly shot, the two sons grappled with their father, and after a desperate struggle succeeded in disarming him, and binding his hands and feet. The neighbors were summoned. After they had gathered at the house, old man Fields begged hard to be released, promising that he would behave himself and not try to escape. His wish was granted. He slipped out of the house, and was found shortly afterwards in his barn with a terrible gash in his throat, which he had inflicted with a razor. Physicians were summoned, and every attention given the parties. Though badly wounded, the parties were all living at last accounts, but their recovery is doubtful.

FRED WEAVER, ("Waterman"), who was reported drowned off the Minnie Bay at Coney Island one day last week, arrived home safe and well by the Bonanza Saturday night. His friends met him at the boat and gave him a rousing reception.

THE unpleasant sensation to delicate eyes, experienced after reading or working for a considerable time, especially by artificial light, is entirely obviated by using Diamond Spectacles—every pair warranted or money refunded. For sale by Ballenger, Jeweler.

W. B. MATHEWS sold, last Saturday, a lot on the South side of Second street, just east of Limestone bridge, to the Maysville and Big Sandy Railroad Company for \$1,000 cash. He is to have the use of the cooper shop and frame cottage standing on the lot until the first of next January.

THE game of base ball Saturday afternoon was won by the Maysville boys, the score standing 53 to 24 in their favor. During the game, Waldo Hamilton, of the Fifth ward, was accidentally struck on the head by a bat in the hands of one of the Abbeeneers. Hamilton's injuries were attended to by Dr. Owens.

ED. SHEETS, charged with using language to provoke a breach of the peace, was tried Saturday by Squire H. P. McIlvaine, and fined \$10 and costs. Failing to pay or replevy, he was sent to jail. Sheets filled himself with whisky and hard cider one night last week, and raised a disturbance at the home of Joseph Cady.

ISAAC N. CHILDS died at his home on Third street this morning about 3 o'clock, at the age of forty years. He fell on a slippery side-walk on the 23rd of last December, fracturing one of his legs, from which he never recovered. He was born in Maysville, and belonged to some of the oldest families of this city. Funeral services Wednesday afternoon at 2 o'clock. Burial by the Oddfellows and Knights of Pythias, of which orders deceased was a member.

COX PLOW WORKS.

Shall Maysville Lose Them?—Industrial Enterprises Needed to Build up Our City.

Let's Keep What We Have at Least, and Not See Other Cities Prosper by Our Loss—Profitable Enterprises.

Industrial enterprises will build up any town or city. This is admitted by all. Maysville is no exception. The cities throughout the country that are alive to their own interests know the value of industrial enterprises only too well, and we see inducements offered here and there in the shape of donations of cash, or land, or both, to secure the location of manufacturing. Every manufacturing brings to the city where it is located benefits and advantages in numerous ways and shapes which that city would not otherwise possess or enjoy. We hardly think any one will doubt the truth of these remarks.

When once located it is easier to retain a factory, much easier indeed, than it is to secure the location of a new one. And Maysville will find it much easier to keep the Cox Plow Works here than she will to secure the location of some other industry of like character. But, if she wants to retain these works, something must be done, and that pretty soon. Parties at Louisville are after the works, and have made an offer to secure their location at that point. Two other propositions from different points in the South are also under consideration. Other cities seem alive to their interests, but is this true of Maysville? Other cities are casting about to secure industrial enterprises and have an eye to their future. Can the same be said of Maysville? We regret to say that it can not. There is too much hanging back, and there is too much scheming to further one's individual interest here. The general welfare and the building up of the city seem to be minor considerations with too many.

We are informed, and that by one who knows what he is talking about, that if these works are removed to some other point they will take with them twelve skilled employees and their families. True that is not a great deal to lose in the way of population, but the works will be lost and the money brought into Maysville by the product of these works will be lost. Every little helps. It helps either to tear down or build up, and it will be Maysville's loss, and her citizens' loss, if these works are removed.

A company with a capital of \$50,000 can retain the works here. We understand that about \$30,000 of this amount was guaranteed at one time, a few months ago, but for some reason the matter was dropped. If the proper effort was made we believe the necessary capital could be easily secured. The amount ought to be subscribed in a day's time. There are just about \$1,000,000 cash deposited in the three banks of our city, doing the depositors no especial good, and their city less. Out of this million dollars cash, ought there be any trouble to secure a capital stock of \$50,000 for this enterprise?

Mr. A. B. Crum, who has been connected with these works for years, has secured the right to manufacture a patent farm wagon, one of the latest and best. This enterprise is to be added to the manufacture of plows, we understand, no matter whether the works are kept here, or removed to some other point. There are about 6,000,000 farmers in this country, and wagon-making, as well as the manufacturing of plows, is a profitable business in which to engage. Old plows and old wagons have to be replaced with new ones.

A factory to turn out 10,000 wagons a year, we understand, can be put up at a cost of \$25,000. Estimating the selling price of the wagons at \$25 each, the output of such a factory for a year would amount to \$250,000. Estimating the cost of making and selling these wagons at \$150,000 and you have \$100,000 profit. We have seen the figures, but are not permitted to give them, showing that the itemized actual cost of making and selling 10,000 wagons under this new patent would be only a little over \$100,000, and that the profits on same would be nearly \$150,000. Mr. Crum can give all information.

If the \$50,000 capital can be secured these plow works will be kept here, and the wagon factory added to the enterprise. The question is, will the men of Maysville, who have the means, let their cash lie idle in our banks, doing the town and themselves little or no good, or will they take hold of this enterprise, and place it upon a solid footing at once. No investment at Muncie, Wichita, Chattanooga or Birmingham will pay a more handsome profit, it seems to us. Such an enterprise will give employment to seventy-five or one hundred skilled hands, and will be a big thing for Maysville.

The new railroad that will soon be completed will open up the markets of

the world to Maysville, and the people should take advantage of the situation. The completion of this road will give Maysville new life, if her men of means arouse themselves from their ease and idleness, put their shoulders to the wheel and all push together. Let this enterprise of the plow works and the wagon factory receive, at once, the consideration it deserves. It's an enterprise that will not be offered Maysville soon again.

Prohibition Convention.

All earnest temperance men of Mason County, regardless of party, are requested to meet in convention at the court house in Maysville, Ky., on Saturday, June 11th, at 2 o'clock p. m., for the purpose of nominating a candidate for the Legislature.

T. F. KIFF,
Committeeman for Mason County.

Strawberry Supper.

The ladies of the M. E. Church solicit the patronage of the public at a strawberry supper this evening, at half past 7 o'clock, at the residence of Mrs. Case, south-east corner of Third and Limestone. Readings and recitations. A dime will be charged at the door, and the prices will be moderate.

Masonic Notice.

Regular meeting of Confidence Lodge, No. 52, this evening, and work in the third degree. All Master Masons in good standing invited.

Ask your grocer for Foerster's City Butter Crackers. They are the best.

I. O. O. F. Notice.
The installation of officers of Canton Maysville, No. 2, P. M., will take place to-night. All members are requested to be present.

Crown Prince's Threat Trouble—Italy
Will Hold Massowah—Foreign News.

SWANSEA, June 6.—There was a great
manifestation of Mr. Gladstone here to-day.
One hundred thousand Welshmen turned out
in line to do him honor. The men all wore
rosettes and carried banners, some of which
bore the name of the Home Rule leader.
Headed by bands of music each division
marched by the grand stand and were re-
viewed by Mr. Gladstone, who with other
prominent gentlemen occupied the stand.

The Pontypridd contingent, composed of
sturdy countrymen was the most conspicu-
ous and led the van, inspiring everyone with
their own enthusiasm. Flags were flying
from nearly every housetop, and at short
intervals during the procession cannon sa-
lutes were fired. The day has been sun-
shiny and delightful.

The Crown Prince's Threat.

BERLIN, June 6.—Dr. Mackenzie, the En-
glish surgeon who assisted in making an ex-
amination of Crown Prince Frederick Wil-
liam's throat, has written to the editor of the
Deutsche Revue, stating that it was
fully established by the microscopic examina-
tion made by Dr. Virchow that the crown
prince's disease is not cancer, but a non-ma-
lignant growth. The latter, he says, can be
cured by careful location and treatment,
and there is no reason to think that the
crown prince's case will prove an exception.
As, however, his throat is very irritable, it
is very important, in Dr. Mackenzie's op-
inion, that the case be conducted without
undue haste.

Italy Will Hold Massowah.

ROME, June 6.—In the chamber of deputies
to-day the minister of War, in the course of
a debate on a proposal to grant seven million
lire for expenses of troops in Africa, stated
that the government was determined to re-
tain possession of Massowah, which was a
valuable point from which to develop trade
and increase the influence of Italy.

The Afghan Question.

ST. PETERSBURG, June 6.—Novoc Vremya
says Russia never agreed to regard Afghan-
istan as outside her influence. There was
only a conversational exchange of views
during Russia's Khiva campaign. Since
that time a great change has taken place,
Russia having become a neighbor of Afghan-
istan.

Will Shortly Resign.

LONDON, June 6.—The Times Paris cor-
respondent telegraphs that he is reliably in-
formed that Prince Hohenlohe, Governor of
Alsace-Lorraine will shortly resign his
office.

King of Palestine.

VIENNA, June 6.—The Allgemeine Zeitung
mentions a project hinted at to make the
pope king of Palestine, under guarantee of
protection on the throne by all the Catholic
powers.

Order From the Pope.

LONDON, June 6.—It is stated that the
pope has ordered the priests throughout
Ireland to advise their flocks to obey the
civil laws of the kingdom.

SENTENCED TO DEATH.

Three Mexican Officers Court-Martialed
for Committing Two Crimes.

EL PASO, Tex., June 6.—Gen. Lorenzo
Vega, president of the military court that
sentenced the three Mexican officers to death
in El Paso, and says that the three are
still in jail at Guaymas, pending an appeal
for mercy to the president and secretary of
war in the City of Mexico. The prisoners
were tried by a court-martial composed of
two generals and five colonels, and promptly
sentenced to death on the two charges of
kidnaping and invading friendly territory.

In Mexican official circles it is not thought
the intervention of Secretary Bayard for
leniency will have the desired effect as the
standing of Col. Arvizu in the Mexican
army is not of the best, and there is no sym-
pathy for him among his own countrymen.
The sentence of death will undoubtedly be
carried out.

Mystery and Sensation.

CRESTON, Iowa, June 6.—Last October
Charles Brown, a farmer living near Crom-
well, Iowa, while asleep, was shot, as his
wife alleged, by a stranger, who fled after
the shooting. Brown recovered from the
wound, and he and his wife separated shortly
after. The whole affair seemed a mystery,
and a sensation has occurred by the arrest
of the wife for attempted murder, and her
brother C. H. Thomas, for instigating the
crime. Mrs. Brown waived examination
and Thomas is having a preliminary exami-
nation. All parties are highly connected
and have hitherto borne unblemished rep-
utations.

Judicially Murdered.

YOUNGSTOWN, O., June 6.—It has just
come to light that Charles M. Sterling, a
tramp, who was hanged on April 21 for the
murder of Miss Lizzie Gombacher, was
judicially murdered. At his first trial the
jury disagreed, and was discharged, and in
ignorance or violation of the supreme court
decisions, and the Ohio statute, the reasons
for the jury's discharge were not journalized
by the court clerk. Sterling was tried
again, convicted and hanged, and to the last
protested his innocence. In a similar case,
the plaintiff in error was discharged the
court holding that he had been twice placed
in peril of life, contrary to law, and the
state and United States constitution.

Feather-Weight Fight.

MINNEAPOLIS, Minn., June 6.—At mid-
night Friday night, Tommy Warren, cham-
pion feather-weight pugilist of America, de-
posited a forfeit of \$250 and accepted the chal-
lenge of the Weir, the "Belfast Spider," and
champion feather-weight of Great Britain, to
fight for \$1,000 a side and the international
championship, the fight to take place within
sixty to ninety days from the signing of ar-
ticles, and to occur somewhere in the east.
The remainder of the \$1,000 will be posted
on Monday.

Dangerous Illness of James S. Speed.
LOUISVILLE, Ky., June 6.—Gen. James S.
Speed, who was attorney general under
President Lincoln, is dangerously ill at his
home in this county. The family and phys-
icians state that he can live but a few days
longer. He is almost eighty years of age
and is gradually sinking from mere ex-
haustion.

POINTED PARAGRAPHS.

Topics of the Times Given in a terse and
Spicy Manner.

Russian petroleum is driving the American
product out of the market in the far east.

Earthquakes shook up South Carolina, and
on the Pacific slope cracked the walls of
houses.

John Connelly, a Braceville (Ill.) miner,
while drunk, killed a neighbor's wife and
committed suicide.

A terrific storm destroyed a large amount
of property at Kansas City. Two persons
were killed by lightning.

John I. Oliver, a Washington justice of
the peace, refuses to surrender his office to
the man appointed by Cleveland to succeed
him, on the ground that his removal is with-
out proper authority.

The Great Serpent mound, the celebrated
pre-historic monument of Adams county,
Ohio, has been sold to the Peabody institute
and Harvard university, the object being to
prevent its destruction.

The contract for printing the Postoffice
Guide, monthly and annual, has been
awarded to Donnelly & Son, of Chicago, at
fourteen cents per copy for the annual and
one cent per copy for the monthly.

Startling disclosures were made by Lord
Randolph Churchill of the inefficiency of the
British army and navy. Millions have been
spent for arms that were absolutely worth-
less. Expenditures were controlled by a
ring of officials.

The Lomax Rifles, of Mobile, prize win-
ners at Washington, refuse to drill the To-
ledo Cadets for \$5,000 a side, saying such a
course would be a reflection upon the integ-
rity of the army officers making the awards
at the National drill.

The Synod of the reformed Presbyterian
church, in session at Newburgh, N. Y., has
adopted a resolution calling upon all evan-
gelical organizations to combine to secure
the abolition of all postal service that is in
violation of the Sabbath law.

BASE BALL.—Cleveland 6, Mets 3; St.
Louis 7, Brooklyn 4; Indianapolis 12, Pitts-
burg 0; Philadelphia 3, Boston 1; New York
14, Washington 2; Chicago 4, Detroit 2; Col-
umbus 3, Akron 1; Mansfield 14, Steuben-
ville 3; Zanesville 3, Kalamazoo 2.

Fever Spreading at Key West.

KEY WEST, Fla., June 6.—Two additional
cases of yellow fever were taken to the bar-
acks for treatment during the past twenty-
four hours, two additional deaths are ex-
pected, and indications point to a continu-
ance of the disease. William Jameson, pub-
lisher of the Democrat, is down with the
fever. The board of health will renew their
request for all unhealthy, unacclimated peo-
ple to leave the island, and the exodus con-
tinues by the only avenues of escape, which
are now confined to New York and New Or-
leans, the Jacksonville authorities having
notified the board of health at Tampa that
passengers from here must remain in quar-
antine for fifteen days. A large number of
people left yesterday for New York on the
steamer Carondelet, while the steamer Hutch-
inson took a large number to New Orleans.

Farmers' Fatal Quarrel.

LOUISVILLE, Ky., June 6.—Joseph Lan-
drum and Elijah Raleigh, wealthy farmers
of this county, met late last night at Jeff-
ersonton, and renewed an old quarrel. Lan-
drum attacked Raleigh with a knife, cutting
him severely in the side. The men were
then separated, and started for their re-
spective homes, Raleigh in a wagon and
Landrum on horseback. Landrum rode
ahead and secured a rifle, returned and shot
Raleigh in the abdomen, inflicting a wound
which will likely prove fatal.

The Weather.

WASHINGTON, June 6.—Indications—
Fair weather, followed by local rains, west-
erly winds, stationary temperature.

FINANCE AND COMMERCE.

Quotations of the Money, Stock, Produce
and Cattle Market for June 4.

NEW YORK.—Money 4 1/4 per cent. Exchange
steady. Government firm.

Currency sixes, 123 bid; four coupons 123 1/2;
bills and half, 109 1/2 bid.

The stock market this morning was active and
strong. At the opening prices were 1/4 to 1 per
cent. higher for three-fourths of the whole list,
St. Paul and Duluth being the feature. This
stock was actually bought and advanced on
every sale. The whole list continued strong up
to within a half-hour of the close, when the an-
nouncement of a decrease in the surplus of the
money held by banks caused some selling by the
small holders and a fractional decline. The
closing prices, however, were generally 1/4 to 1
per cent. above those of last night.
